# Grooms Get a Line On What to Expect

JUAREZ, Mexico, Oct. 10.—Amer-

ican brides may envy Mexican brides one of the customs which makes Mexico so different and interesting.

When a young man and woman become betrothed in Mexico, the bridegroom-to-be arranges to finance the purchase of the bride's trousseau. He goes, with her to the leading stores here or across the border, suggests purchases for the trousseau, and pays the bill when the shopping trip is ended. The girl's mother always accom-

panies the two, as a Mexican girl who is unmarried rarely ever goes out alone unchaperoned.

While he was minister of war, General Obregon, the hero of the decisive battle of Celaya, came to the border and arranged for the purchase of his future wife's entire wedding outfit. He spent days in the big El Paso department stores, and his bills for the dainty articles of women's wear were said to have been many thousands of dollars.

# Army of Conservation Started in California

SAN FRANCISCO, Oct. 10.—The

women of California are organizing an actual army of conservation for the period of the war. It will be an army of democracy in every sense of the word. Interest, enthusiasm and intelligence will be the only factors that will count. The little stenographer who works in a downtown office will have the same opportunities to become a major general in this army as has the wife of the man who employs her.

This organization will exactly parallel that of the National army with the same company, regiment, brigade, division and corps organized on and the same ranks of officers, so that for every private and every officer of the United States army in France there will be a corresponding rank and authority. At a later period it is proposed to a degree to bring the two great organizations into such close touch that a company or regiment, or even an individual officer in the war army in Europe will know that a similar company, regiment or officer in the army of conservation is

responsible for it. Headquarters for looking after their or his interests, and who she is.

If Captain Smith of Company B, Fifth regiment, Second brigade, Third division in Europe, finds his men lacking in comforts or necessities, he will know that Captain Mabel Tillingford of the same company, regiment, brigade and division in California is responsible for it. Headquarters for the organization of the great women's army of conservation in California have been established in San Francisco, and a director of organization has been appointed and given full authority of the Federal Food Commission to carry thru the immense work of creating this regular army of conservation. Each regiment, brigade and division will, however, have its own permanent local headquarters, and the state will be divided into regular army corps, with local headquarters and staff officers. Only women will be eligible for enlistment.

Two general staff headquarters will be established, that at San Francisco and one at Los Angeles, having jurisdiction over the army organizations of the northern and southern halves of the state.

# PERSHING AND BLISS PROMOTED

ARE NOW RANKED AS GENERALS WITH SALARIES OF \$10,000 PER YEAR—GRADE IS 'CREATED' FOR PERIOD OF WAR

WASHINGTON, D. C., Oct. 10.—

President Wilson has signed commissions as generals for Major Tasker H. Bliss, army chief of staff, and Major General John J. Pershing, commanding the American Forces in France.

The both officers have equal rank. General Bliss takes precedence by virtue of his position as directing head of the entire army organization. Congress revived the rank of general for the period of war, largely to avoid embarrassment to General Pershing in dealing with officers of higher rank commanding the allied armies on the western front. The new grades carry a salary of \$10,000 a year, an increase of \$2,000 over the pay of major general.

The grade of lieutenant general also was revived by congress, the rank to be given commanders of army corps, but it was stated at the war department that there is no intention of creating any lieutenant general or army corps at this time, as the divisional training system will be continued.

The name of General Siebert was mentioned as the most likely candidate for the first commission as lieutenant when the army corps is organized in France, as he commanded the first troops sent to Europe.

The President also signed commissions of army bureau chiefs to be major generals, and many brigadier generals whose nominations were approved by congress in the last days of the session.

TURN HAIR DARK WITH SAGE SEA

IF MIXED WITH SULPHUR IT DARKENS SO NATURALLY NOBODY CAN TELL

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmothers recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mummy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## GLASS OF SALTS CLEANS KIDNEYS

IF YOUR BACK HURTS OF BLADDER BOTHERS YOU, DRINK LOTS OF WATER

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them

with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacy about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

## Pain

Here is a message to suffering women. Mrs. Kathryn Edwards, of R. F. D. 4, Washington, Court House, Ohio, "I am glad to tell, and have told many women, what I suffered before I knew of Cardui and the great benefit to be derived from this remedy. A few years ago I became practically helpless . . .

## Cardui

The Woman's Tonic  
"I was very weak," Mrs. Edwards goes on to say, "and could not sleep without suffering great pain . . . Nothing seemed to help me until I heard of Cardui and began the use of it . . . I gradually gained my strength . . . I am now able to do all my work." If you need a tonic take Cardui. It is for women. It acts gently and reliably and will probably help you as it helped this lady.
